Education

Virginia Commonwealth
University, Richmond, VA
B.S. in Computer Science,
Concentration in Software
Engineering

Expected Graduation: May
2023

Brighthouse Community
College, Chester, VA
A.S. in Computer Science

August 2020 - May 2021

Projects

- Voice Recorder Web Application for VCU Health
 - As a member of a three person team, designed a web application that allows parents with infants in the NICU at VCU Critical Care Hospital to record voice messages and send for nurses to play for their infants. Created using PHP, Javascript, HTML, CSS, SQL, and AWS services EC2 and RDS.
- Automotive Repair Shop Database
 - Designed and created an automotive repair shop database to help automotive shops keep record of customer and vehicle information as well as work done on their vehicles. Created using MySQL, PHP, and Javascript.

Student Organizations

Society of Hispanic Professional Engineers at VCU
RamDev: Software Development at VCU
WebRams: Web Development Club at VCU

Skills

- Proficient in Java, C, Python, SQL, PHP
- Familiar with Javascript, HTML, CSS,
